

## Introducing SilMax®

New

Introducing **SilMax®**, our new commercial quality product line of silicone bakeware. Unlike other silicone bakeware being sold in the food service industry, **SilMax®** is designed for the professional baker and comes in many unique shapes and sizes not found in traditional metal pans. Made of 100% liquid silicone with a glossy non-stick interior surface, **SilMax®** ensures a flexible easy and quick release with every bake. The pans can be used in the freezer, microwave or oven.
